

The Kramer RK-19 Under-the-table Brackets

Congratulations on purchasing your Kramer metal **RK-19** under-the-table brackets for installing 19" 1U machines underneath a wooden table or podium top. The **RK-19** is suitable for all types of Kramer 19" 1U machines, and is sturdy, cost-effective and easy to install. The **RK-19** consists of two metal brackets which are attached to a Kramer 19" 1U machine via the 12 machine screw holes and to the table via the six rim screw holes.

Installing RK-19

To install the **RK-19**:

- Attach the **RK-19** brackets to the sides of the Kramer machine
- Fix the **RK-19** with the machine under the table

Attaching the Brackets

You can attach the **RK-19** brackets to all types of Kramer 19" 1U Kramer machines, as follows:

1U 19" Machine Size/Type	Screw locations (shown with an arrow)
19-inch (W), 7-inch (D) 1U (H)/Aluminum (four screws on each size)	

1U 19" Machine Size/Type	Screw locations (shown with an arrow)
19-inch (W), 9-inch (D) 1U (H)/Aluminum (four screws on each size)	
19-inch (W), 7-inch (D) 1U (H)/Metal (two screws on each size)	
19-inch (W), 9-inch (D) 1U (H)/Metal (two screws on each size)	

Fixing the RK-19 with the machine under the table

1. Place the unit to the underside of the table and mark the correct location.
2. Insert the six 4.2X16 wood screws into the six rim screw holes (three on each side) and fix the **RK-19** to the table.
