

BC-DGKat623

Four-Pair U/FTP Data Bulk Cable (23AWG)

Kramer's BC-DGKat623 is a 4-pair U/FTP (unshielded around foiled twisted pair) cable designed as the ideal companion to Kramer's twisted pair digital transmitter-receiver sets to provide optimum range and performance. The cable construction is based on unique insulation foam materials and shielding materials usually not used in conventional IT CAT cables. As a result Kramer BC-DGKat623 cables maintain much better signal integrity on longer cable runs and provide less crosstalk between the twisted pairs inside the cable for modern high-frequency digital video signals. Using Kramer's BC-DGKat623 cable adds much needed "invisible power reserve" to your installation to make them hassle-free and ensuring piece of mind in demanding AV applications.

Note: Requires A Special RJ-45 Connector for 23AWG Cable

FEATURES

- **Quality Construction** - 4 shielded twisted pairs (U/FTP) of 23AWG solid copper conductors are cabled together in an unshielded outer jacket.
- **Optimized for Kramer Hardware** - Use with any of Kramer's wide range of twisted pair digital transmitter-receiver sets. Terminate with shielded RJ-45 connectors.
- **RJ-45 Connector** - The larger diameter 23AWG twisted pair cable requires a special RJ-45 connector. Use the Kramer CCR-RJ45-TP6.
- **Length** - Available in pull boxes of 100/305m (328/1000ft).
